

Brian Oosterhoff

Brian Oosterhoff has an educational background in anesthetic nursing and healthcare management with a Swiss Federal Certification as a specialist in hospital management. After leading an anesthesia department for 8 years, in 2007 he led the new project of the freestanding, ambulatory surgery center "Daisy". Since 2009 he is the COO of this ASC in which he maintains a frequent clinical activity.

Active promoter of a virtuous, self-empowered corporate culture, he is committed to promoting day-surgery with an enthusiastic propensity for simplification and innovation.

Participant and speaker at various international conferences, he has developed an expertise in the field of outpatient surgery and frequently shares knowledge with visiting delegates.
